

Prescription Medication Consent Form

The Provider at Bayside Plastic Surgery use an electronic medical record system that allows electronic prescribing of medications. Medications are sent to your pharmacy through a secure electronic prescription connection (Rx Hub) which improves the timely and accurate transmission of your medication information.

To optimize the use of this electronic capability, and coordinate your care between us and your specialists, we ask that patients allow us to access their medication history through the RxHub.

Please check only one of the following:

I consent to allow my provider to access all of my medication history

I consent to allow my provider to access only my medication history for medications prescribed in this office.

I DO NOT consent to my provider accessing any of my medication history.
